

Homework 0

Due: Sep. 13, 2022

Hi everyone, welcome to CS1570! Some action items to get you started with the course:

1. You can find the course website at <https://cs1570-2022.github.io>, where homeworks and hours information will be located. Note that <http://cs.brown.edu/courses/csci1570> redirects you to the correct site.
2. Join the course Gradescope at www.gradescope.com (you should have been added automatically).
3. Join the course Ed page at <https://edstem.org/us/courses/28209>. You can log in to Ed using your Brown credentials. Make sure to keep an eye on this discussion page as we will upload lectures and maintain FAQ threads for the homeworks on here.
4. Read the collaboration policy on the course syllabus (also under the resources section of the course website). There is space for you to include a signature at the bottom of the pdf, so just submit a signed copy of the syllabus on Gradescope under the **Homework 0** assignment :).

Finally, if you have any feedback for the course, there is an anonymous feedback form located on the homepage of the course website. We would love to hear from you!
